# ARTS AND DISPLAY

Arts and Display was created in 1920 by Elsie Walker, in hope to reunite different types of artists and give them an appropriate display area. With no censorship and open to all. The Arts and Display association links with institutions , schools and charities that gives a chance to all.

Arts and Display association often operates in cities and villages, under the inscription to the “chance for all “ project. Many companies sponsor the association in hopes to make it as available as possible for anyone.
